Assistant Director for Research and Evaluation

24 October 1945

To: Chief, Interdepartmental Coordinating and Planning Staff

1. This office contemplates the eventual development of a research program in international labor affairs. Since, however, the intelligence research organization of the Department of State is as yet unable to exploit the source material now held in that Department, it will be appreciated that we may be unable to do so for some time to come.

2. The enclosure has been retained in GRE pending the activation of a division of the Functional Branch having cognizance of this subject.
